HCL Robotic Autoloader

For unattended disc duplication runs, let the Microboards HCL Autoloader handle the work load. With a state-of-the-art robotic arm and eight drives, the autoloader will burn up to 104 CDs or 72 DVDs per hour.*

- Complete standalone operation:
No PC required
- Maximum 1000 disc capacity
- Multi-Master Recognition Technology (MMRT): Loads multiple masters at once to run multiple duplication jobs in succession.
- Sticky media separator option: Higher probability to separate sticky media.
- Multi-Language capability for English & Spanish
- Auto-Counter Technology: Displays the total number of discs success fully copied compared to desired output for each project.

*Discs burned to full-capacity

- CD-R/RW

Orbit 3

The latest in a line of outstanding disc duplication products from Microboards Technology is the third generation of the award-winning Orbit automated CD/DVD copier. The Orbit 3 allows unattended duplication of up to 100 discs at a time.

Featuring Microboards' patented disc singulation technology, 100 CDs or DVDs can be placed into the Orbit 3 at a time. The dual-drive system writes two discs simultaneously at top speeds of 48X CD and 18X DVD.

The Orbit 3 stores successful discs in a spindled output bin while automatically ejecting rejected discs.

The Orbit 3 also comes complete with HDD for multiple image archiving.

ORBIT 3 FEATURES

- 18X DVD / 48X CD
- Easy interface
- 100 disc capacity
- 2 DVD/CD recorders
- Bit-to-bit data verification
- Audio track extraction
- Dynamic image archival
- Selectable recording speed
- Batch job processing
- Auto counter
